

Ages  
**8-11**

George just had a birthday and now he has \$100.00! Should he put \$70.00 in Savings, or Spending? Should he put \$20.00 in Sharing or Savings? Help him figure out what to do with it.

**\$100.00**

**70% = \$70    20% = \$20    10% = \$10**
