

TIMOTHY GODZICH

Make Great Days, Inc., Chief Optimist

I am a serial entrepreneur that has founded or co-founded 7 companies. While I have had some significant successes selling a couple of companies, I have also had failures that I have learned from on the entrepreneurial journey. I have experience in many different industries, from consulting to health care to insurance to backpacks! I started my career as an accountant, so I can help entrepreneurs understand cash flow and create and analyze a profit and loss statement to maximize business operations. With all of my experience as an entrepreneur, I'm also really great at business development and finding the right business model for each unique business. I love the roller coaster ride that is being an entrepreneur and I want to help young business owners succeed in that journey.
