

WHY SAVE AT A BANK?

There are lots of reasons why it is better to save at a bank instead of at home. Here are some of the most important!

Safety – Most banks have deposit insurance through the **Federal Deposit Insurance Corporation (FDIC)**, which insures account holders against the loss of their money up to a specified limit. If you save money at home and something happens to it, it is gone.

Interest – Because the bank uses the money put into savings accounts to loan money to customers, the bank pays interest to savings account customers. There are two ways to make money: you can make money by working, or you can let your money work for you by investing it in a savings account where it will earn interest.

Record Keeping – Statements from the bank provide a record of transactions, which you can double check with your own register at home. This way you know how much money you have at any given time as well as a record of how much you have deposited or withdrawn.

Budgeting – Storing your money in the bank helps you keep track of the money you are saving for long-term goals. Since money in a bank is also less accessible than money kept at home, it is harder

Emergency – Savings can be used in case an emergency occurs and you are short of cash.

WHY SAVE AT YOUNG AMERICANS BANK?

Saving at any bank is great, but we think there are a few reasons why you might like our bank just a little better!

Everything is Designed Just for You

Our teller line has counters at two different heights (and a step up if you need it).

Our transaction tables feature two different heights as well.

Our customers come in lots of different sizes, so our bank does too!

The Coin Machine

Unlike most banks, our coin machine is located right on the teller line, so you can watch your coins being counted.

Even better, the coin machine is FREE of charge for our bank customers.

So bring in your piggy banks, and watch the money add up!

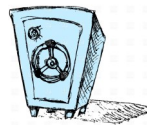

Your Parents Can't Bank Here

Only customers under the age of 22 can have accounts at Young Americans Bank!

You Can See the Vault

We want you to know exactly where your money is going. That's why our vault is located right behind the teller line.

But don't worry, your money is still plenty safe; the vault door alone weighs seven tons – that's as much as seven baby elephants!

Activity Kiosks

While you're waiting to make your deposit, you can play fun money games and learn important financial facts at our activity kiosks in the bank lobby.

Friendly Staff

Since all of our customers are young people, we have a lot of experience with the kinds of money challenges you're facing.

So any time you have questions about savings, banking, or money in general, just ask any of our knowledgeable tellers. We're always happy to help!
