Why do you want to be a mentor?

I'm inspired by young entrepreneurs and can only imagine how I would have benefited at their age from having an experienced mentor to support me. I love creative problem solving and looking at things from a different perspective, which I can use to help other entrepreneurs as they embark upon their amazing journeys.

What unique skills or expertise do you possess that would be helpful to a young entrepreneur?

I've had a variety of different businesses and tend to see the opportunity within the challenge. My strength is in staying focused on the bigger picture when things get tough. I have the ability to see new markets and avenues as well history in developing creative sales strategies.

What do you like to do for fun? Any special hobbies?

I love to ride my bike! I get a sense of freedom and adventure even if I'm just going to the grocery store. I love art, especially upcycled art and have produced an entire "upcycle" festival. I play the Harmonica (though not very well), and I love anything outdoors.
