

Paul Sutton

Peak Structural, Retired Owner

Top Skills:

* Business Administration * Customer Service * Leadership

Career Experience

* Entrepreneur * Programs/Services * Sales

Why do you want to be a mentor?

With years of experience in owning a business, I want to share what I have learned with young entrepreneurs! Having a mentor is a fantastic way to learn and grow as a business owner!

What unique skills or expertise do you possess that would be helpful to a young entrepreneur?

What you love is important and I want to help you build your business around that passion. It is also important in how you treat the customer too, and with a history of customer service, I can help you build successful relationships with the community.

What do you like to do for fun? Any special hobbies?

I love to snowboard, hike, run, climb 14er's, and just generally be in the mountains. I love reading and learning; my reading list includes titles on history, philosophy, relationships, leadership, and character development.
