#### ***Why do you want to be a Mentor?***

I have a passion for helping young people in accessing new and exciting opportunities for them! As an experienced Entrepreneur, I know the ins and outs of small business ownership and can teach you what I have learned!

#### ***What unique skills or expertise do you possess that would be helpful to a young entrepreneur?***

I have worked with 100 different small business clients on financial literacy and planning in empowering them to thrive in their journeys. As an entrepreneur myself, I know the difficulties as well as the rewards of small business ownership and can help you navigate them to enjoy your experience as a business owner.

#### ***What do you like to do for fun? Any special hobbies?***

I love fitness and travel. I am currently planning to run a 10k in April and I love going on camping trips with my family!
