Why do you want to be a mentor?

Working in the corporate world taught me so much about business and competition, it also taught me about how life can change in an instant. Eventually, I became an entrepreneur, I want to use the lessons I learned to empower young entrepreneurs!

What unique skills or expertise do you possess that would be helpful to a young entrepreneur?

My background is in sales and marketing, working with many different big-name brands. This has given me an understanding of how to make your business attractive to customers and how you can meet the needs of your customers and retailers!

What do you like to do for fun? Any special hobbies?

I enjoy skiing, hiking, walking my dog, and watching soccer and hockey!
