\* Marketing              \*Programs/ Services

#### ***Why do you want to be a mentor?***

I am passionate about transforming ideas into tangible successes and have found starting a business to be both a fun challenge and my most rewarding venture. I am eager to pass on the lessons learned about actualizing innovative ideas to young entrepreneurs who want to make a positive impact.

#### ***What unique skills or expertise do you possess that would be helpful to a young entrepreneur?***

With a background in higher education fundraising and entrepreneurship, I specialize in developing business plans, finding ways to make money, and navigating challenges to bring innovative ideas to life.

#### ***What do you like to do for fun? Any special hobbies?***

In my free time, I'm deeply involved in curling, both professionally and recreationally. Currently embracing my Taylor Swift era, I'm also exploring golf and journeying across the country with my teenager, scouting the ideal college.
