*Technology *Software Technology *Development

Why do you want to be a mentor?

I'm all about uplifting young folks to chase their dreams, believing it makes our world a better place. My leadership style is all about guiding and empowering kids to be their best, showing them that getting involved in what they love keeps them focused. Plus, I'm keen on showing the importance of giving back and making a difference in our communities.

What unique skills or expertise do you possess that would be helpful to a young entrepreneur?

In my role as a deputy commander for the Civil Air Patrol, I've got a solid track record of boosting young people to reach their goals. I'm all about helping people succeed and grow.

What do you like to do for fun? Any special hobbies?

I am really into quilting and knitting. You might also find me wandering trail paths or getting into the Zen of yoga.
