#### ***Why do you want to be a mentor?***

I've been fortunate to have great mentors, and now I want to give back by helping young people develop the skills they need to succeed. I'm excited to not only teach and guide but also to learn from those I mentor, making it a meaningful experience for both of us.

#### ***What unique skills or expertise do you possess that would be helpful to a young entrepreneur?***

I'm a skilled sales professional with tech experience, now working in financial services to help with business plans. I can assist with creating sales strategies, setting goals, and offering ideas for content, social media, and email marketing.

#### ***What do you like to do for fun? Any special hobbies?***

I love hiking! I'm also a huge dog person, I foster German Shepherd puppies. I love reading, fitness, and learning new things. In my spare time, I am a LinkedIn influencer with over 19,000 followers!
